Certifications

digital marketing
Microsoft Certified: Fabric Data
Engineer Associate
Northstar - Getting Started with
Cortex Code
Building Intelligent Data Application
with Snowflake
Accelerate AI Development: Building
AI Applications with Snowflake
Cortex: RAG, Text-to-SQL & CoCo

Pugazenthi D

Data Engineer | SQL | Snowflake | dbt | Microsoft Fabric | Python |
Power BI | Data Warehousing
Chennai, Tamil Nadu, India

Summary

I'm a Data Engineer with hands-on experience working with SQL, Snowflake, dbt, Python, Power BI, and Microsoft Fabric. I currently work as an Associate at Systech Solutions, where I've been building practical experience in data engineering, including working with source data, data modelling, ELT pipelines, data quality, and reporting. What I enjoy most about data engineering is understanding how data moves from the source to the final insight. I like working through the different stages — understanding the data, designing the right structure, building transformations, and making sure the data is reliable and useful. My key skills include:

- SQL & SQL Server
- Snowflake
- dbt & ELT
- Microsoft Fabric
- Python
- Data Warehousing & Dimensional Modelling
- Power BI
- Data Quality & QAI

recently earned the Microsoft Certified: Fabric Data Engineer Associate certification (DP-700), which has helped strengthen my understanding of modern data engineering and Microsoft Fabric. I'm always looking to learn, work on real-world data problems, and improve my skills as a Data Engineer.

Experience

Systech Solutions, Inc

10 months

Associate

August 2026 - Present (3 months)

Chennai

Data Engineer Trainee

January 2026 - July 2026 (7 months)

Chennai

- Gained hands-on experience with SQL, SQL Server, Snowflake, dbt, Python, Power BI, and Microsoft Fabric.
- Worked on data transformation and ELT workflows using dbt and Snowflake.

- Practiced data modelling, data warehousing, data quality, and analytical reporting.
- Worked on a hands-on end-to-end data engineering project covering source analysis, dimensional modelling, ELT development, and Power BI reporting.
- Collaborated with the team to understand data requirements and troubleshoot data-related issues.

NoviTech R&D Pvt Ltd

Data Analyst

July 2025 - August 2025 (2 months)

- Gained hands-on exposure to ML/DL techniques such as CNNs and predictive modeling, applying them to real-world datasets.
- Used Python (NumPy, Pandas, Matplotlib, Seaborn), SQL, and Excel (Power Query, PivotTables, VBA Macros) to clean, transform, and analyze large datasets.
- Created dashboards and visual reports using Tableau/Power BI, translating technical results into actionable business insights.

Education

Dwaraka Doss Goverdhan Doss Vaishnav College

M.Sc, Computer Science · (July 2023 - June 2025)

SRM University

Bachelor of Science - BS, Computer Science · (June 2020 - May 2023)
